

Design System v1.0 · ZoomInfo-inspired

NovaCorp Design System

The component library powering the NovaCorp Data Analytics & Invoice Audit Platform. Built on the principle that *"benchmarking starts with data cleaning."* Every token, component, and pattern below traces back to the design walkthrough.

| 8. Inputs & filters | 18. Stale & partial-data |
| 9. Cards & KPIs | 19. Live state patterns |
| 10. Tables | |

1. Principles

Three rules govern every choice. When components disagree, principles win.

PRINCIPLE 01

PRINCIPLE 02

PRINCIPLE 03

Clarity over decoration

Enterprise users are time-pressured. No illustrations. No flourish. Data speaks. White space exists to separate sections, never as a stylistic move.

Progressive disclosure

Summary at the top. Drill-down within one click. Dashboard → Vendor → Invoice → Exception. Every screen answers "what do I do next?"

Automation is first-class

The AI agent is visible, trusted, and always explains its reasoning. Purple `#6D28D9` is its consistent visual signature.

2. Color tokens

All colors are CSS custom properties. Status colors are reserved for compliance semantics — never for decoration. Purple is reserved exclusively for AI activity.

Brand

USAGE RULE

Status colors appear only on **badges, dots, and chart marks**. Never as panel backgrounds. Brand blue is the only color that signifies interactivity. AI purple is exclusive to AI-generated insights.

3.

Typography

IBM Plex Sans for prose and UI. IBM Plex Mono for numeric data — fixed-width is essential for scannability across rows of financial figures.

Display · 36/700 · Plex Sans

Compliance Overview

H1 · 24/700 · Plex Sans

Vendor compliance ranking

H2 · 18/600 · Plex Sans

Top exceptions this period

H3 · 14/600 · Plex Sans

Recommended action

Body · 14/400 · Plex Sans

Invoice INV-2024-08812 was flagged because the unit rate (\$412) exceeds the contracted ceiling (\$385).

Small · 12/400 · Plex Sans

Last sync · 4 minutes ago

Caps · 11/600/.06 · Plex Sans

INGESTION LOG

Numeric XL · 28/600 · Mono

\$1,284,317.40

Numeric · 14/500 · Mono 87.4%

Code · 12/400 · Mono INV-2024-08812 · CTR-NV-0427

```
font-family: 'IBM Plex Sans', -apple-system, sans-serif; /* UI & prose */
font-family: 'IBM Plex Mono', ui-monospace, monospace; /* numerics & re's */
```

4. Spacing & radius

Strict 4-pt rhythm. Spacing tokens compose into layouts; radius tokens round components consistently.

SPACING SCALE

--sp-1		4px
--sp-2		8px
--sp-3		12px
--sp-4		16px
--sp-5		20px
--sp-6		24px
--sp-8		32px
--sp-10		40px
--sp-12		48px

RADIUS SCALE

4 · sm	6 · md	8 · lg	12 · xl	pill
--------	--------	--------	---------	------

5. Elevation & motion

Three shadow tiers. Motion is fast (120–180ms) and uses a single ease curve.

--SHADOW-SM

Resting cards, KPI cards, tables.

--SHADOW-MD

Hover state, dropdowns, popovers.

--SHADOW-LG

Modals, drawers, command palette.

MOTION TOKENS

TOKEN	VALUE	USE
--dur-fast	120ms	Hover, focus, button states
--dur-base	180ms	Drawer open, dropdown reveal
--ease	cubic-bezier(.2,.8,.2,1)	All UI transitions

6. Buttons

Five variants × three sizes. Primary blue is exclusive to the most important call-to-action on a screen.

VARIANTS

Run audit

Export CSV

Cancel

Reject invoice

✦ Apply AI fix

Disabled

```
<button class="btn btn--primary">Run audit</button>  
<button class="btn btn--ai">➦ Apply AI fix</button>
```

SIZES

Default 36px

Medium 38px

Large 42px

7. Badges & status

Badges always carry a colored dot. The dot makes status legible at small sizes inside dense tables.

COMPLIANCE BADGES

 **Fully Compliant**

 **Partially Compliant**

 **Non-Compliant**

```
<span class="badge badge--success">  
  <span class="dot"></span>Fully Compliant  
</span>
```

OTHER BADGES

 **In Review**

| **Draft**

 **AI Resolved**

 **AI Suggestion**

AI THREE-STATE PATTERN

| **Flagged**

High impact · needs human review

| **Suggested**

Medium confidence · awaits approval

| **Auto-resolved**

Low risk · logged + auditable

8. Inputs & filters

Filters are first-class UI. Applied filters surface as chips at the top of the canvas.

FORM FIELDS

×

+ Add filter

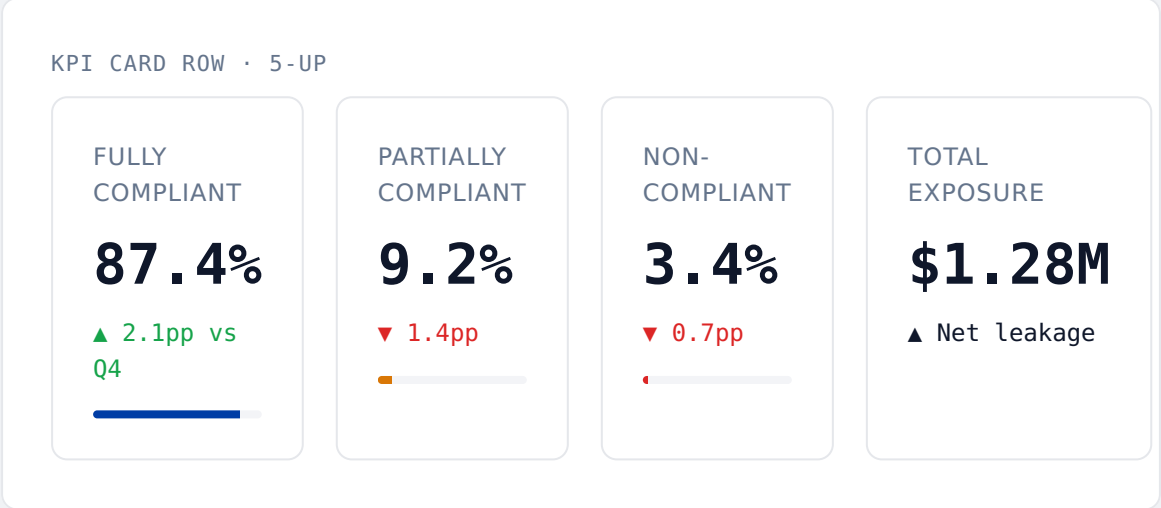

Clear all

TOGGLE · TABLE DENSITY

Compact rows

9. Cards & KPIs

KPI cards stand in a single row at the top of every dashboard view. They show one metric, one delta, and (where applicable) one progress encoding.

10. Tables

Dense tables with inline badges, sortable columns, and dual-encoded ratios. Every row is clickable; hover tints the row.

VENDOR COMPLIANCE TABLE

VENDOR ▲	STATUS	COMPLIANCE RATE	INVOICES	EXPOSURE
Acme Logistics VEN-0042 · EMEA	Compliant	96%	1,247	\$48,210
Northwind Supply VEN-0118 · NA	Partial	74%	894	\$112,440
			412	\$284,008

VENDOR ▲	STATUS	COMPLIANCE RATE	INVOICES	EXPOSURE
Globex Freight VEN-0204 · APAC	Non-compliant	42%		
Initech Carriers VEN-0367 · EMEA	Compliant	91%	680	\$22,180

INVOICED VS EXPECTED · LINE ITEMS

LINE	DESCRIPTION	INVOICED	EXPECTED	DEVIATION
1	Express freight · LON→AMS	\$1,240.00	\$1,240.00	\$0.00
2	Surcharge · fuel	\$ 412.00	\$ 385.00	+\$27.00
3	Customs handling	\$4,500.00	\$ 342.00	+\$4,158.00

11. Navigation

Dark sidebar holds primary navigation, organized by the three platform phases. Phase badges (P1, P2, P3) communicate the workflow.

12. AI patterns

If it's purple, the agent did it. AI components always lead with evidence and confidence — actions appear last.

AI INSIGHT PANEL · MEDIUM CONFIDENCE

Pattern detected · Globex Freight

Confidence 84%

17 invoices in the last 90 days show the same surcharge miscalculation. Estimated recovery: **\$48,210**. The pattern correlates with rate-card version 2.3 ingested on Mar 12.

Evidence: 17 invoices · 3 contracts · 1 rate card · Source: ingestion-log-7841

Open batch recovery (17)

Review one-by-one

Dismiss

AI THREE-STATE HIERARCHY

Flag for human

High-impact deviation

Confidence $\geq$ 75%.
Financial impact above threshold.
Always presents evidence first.

Suggest action

Medium-confidence fix

Confidence 50–75%. Shows reasoning. Action button requires explicit approval.

Auto-resolved

Low-risk routine

High confidence + low impact. Logged with rationale. User can audit at any time.

13. Charts & data viz

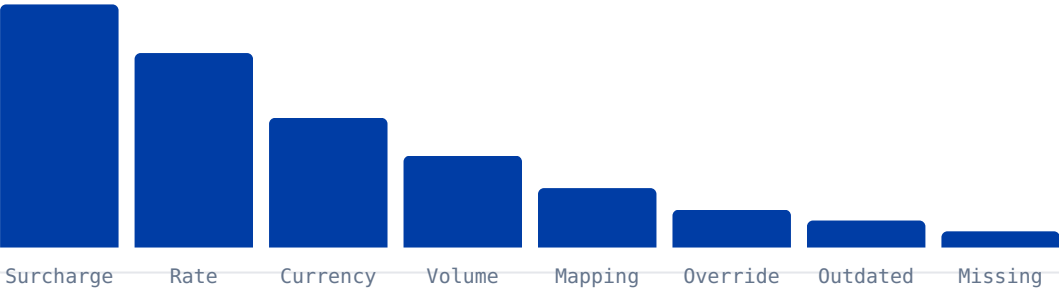

Each chart type has one job. Pick by the question being answered, not by aesthetic.

CHART-TO-QUESTION MAPPING

CHART	ANSWERS	WHERE USED
Waterfall	Where did the net come from?	Compliance overview · financial impact
Pareto	Which 20% causes 80%?	Root cause analysis
Heatmap		Vendor × geography

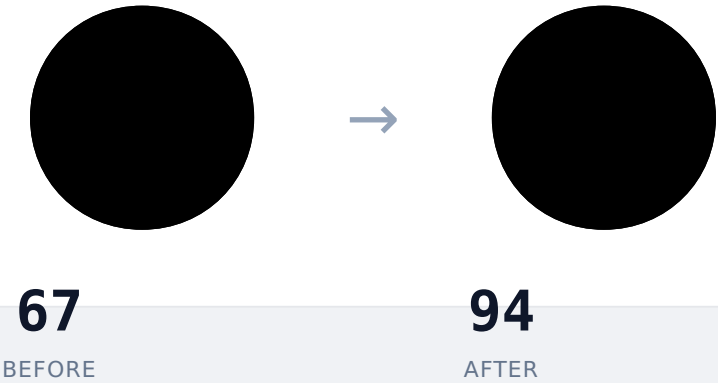

CHART	ANSWERS	WHERE USED
	Where is leakage concentrated?	
Quadrant	Risk vs volume by vendor	Vendor strategy view
Trend line	Are we improving over time?	Compliance over quarters
Donut	Distribution of one variable	Compliance status share
Ranked bar	Top / bottom N comparison	Vendor leaderboard

PARETO CHART · CSS PREVIEW

Bars sort by financial impact (descending). Overlay a cumulative-percentage line to identify the 80/20 break.

SCORE GAUGE · BEFORE VS AFTER

14. Composite patterns

Pre-assembled patterns that solve specific screen requirements from the brief.

AGENTIC PIPELINE · SCREEN 2
